

**OREGON STATE UNIVERSITY
DEPARTMENT OF FOREST ENGINEERING
2006-2007 INSTRUCTOR POOL OPPORTUNITIES
Log Number: 002-1063P**

Position The Department of Forest Engineering is recruiting for full/part-time Instructors to teach on a term by term basis for the 2006-2007 academic year. These appointments are fixed-term, non-tenure track, with the possibility of renewal at the discretion of the department chair. Salary is competitive and will be negotiated with the department chair. Instructors may be needed to teach courses in the following areas: forest operations, forest hydrology, low volume roads, forest soils management.

Department The primary mission of the OSU Department of Forest Engineering is undergraduate and graduate education, research and outreach education. The department offers two undergraduate degree options in forest engineering, as well as masters and PhD degree programs in forest engineering, forest operations, forest hydrology, forest soil science, harvesting, and harvesting/silviculture (PhD jointly with Forest Science). The department has approximately 75 undergraduate majors and 25 graduate majors. The faculty includes 14 members with areas of specialization that include engineering, forest hydrology and forest science.

University and Community OSU is one of only two American universities to hold the Land-, Sea-, Sun- and Space-Grant designations and is the only Oregon institution recognized for its "very high research activity" (RU/VH) by the Carnegie Foundation for the Advancement of Teaching. OSU is comprised of 11 academic colleges with strengths in natural resources, earth dynamics and sustainability, life sciences, entrepreneurship and the arts and sciences. OSU has facilities and/or programs in every county in the state, including 12 regional experiment stations, 41 county extension offices, a branch campus in Bend, a major marine science center in Newport, and a range of programs and facilities in Portland. OSU is Oregon's largest public research university, conducting more than 60 percent of the research funded throughout the state's university system.

OSU is located in Corvallis, a community of 53,000 people situated in the Willamette Valley between Portland and Eugene. Ocean beaches, lakes, rivers, forests, high desert, the rugged Cascade and

Coast Ranges, and the urban amenities of the Portland metropolitan area are all within a 100 mile drive of Corvallis. Approximately 15,700 undergraduate and 3,400 graduate students are enrolled at OSU, including 2,600 U.S. students of color and 950 international students.

The university has an institution-wide commitment to diversity, multiculturalism and community. We actively engage in recruiting and retaining a diverse workforce and student body that include members of historically underrepresented groups. We strive to build and sustain a welcoming and supportive campus environment. OSU provides outstanding leadership opportunities for people interested in promoting and enhancing diversity, nurturing creativity and building community.

Qualifications M.F./M.S./Ph.D. in forest engineering, forest hydrology, forest operations, or an appropriate branch of engineering; evident commitment to cultural diversity and educational equity. Preferred qualifications include evidence of teaching, research or equivalent experience in the relevant area at the college or university level and demonstrable commitment to promoting and enhancing diversity.

To Apply Send the following materials:

- letter of application, describing how your experience, qualifications, and interests have prepared you to teach at the university level in this discipline;
- a curriculum vita including the names, addresses, and telephone numbers of three references; and
- evidence of teaching excellence, such as student, peer, or mentor evaluations if available, to:
