Refereed publications 2016

College of Forestry faculty continue to be recognized as active leaders in forestry-related research. During calendar years 2016 and 2017 (the last two years where data is completely available), faculty produced more than 400 refereed publications.

Wolf, C., Ripple, W. J. (2016). Prey depletion as a threat to the world’s large carnivores. Royal Society Open Science, 3(8), 160252.

These publications are as of December 1, 2018, according to Digital Measures database. Publications are not entirely entered into database until February of the following year.
