The tourism and outdoor recreation industries are growing. TRAL graduates are leaders, educators, and entrepreneurs in our most important natural spaces. Learn to work with communities, non-governmental organizations, and governments around the world to plan and manage nature-based tourism opportunities. Sustainability is an important part of the curriculum. Students will also learn how recreation and our natural lands work together and what the benefits, tradeoffs, and challenges are for tourism. Careers in advisory, policy or management roles in the public or private sectors.
